

STEEL SCULPTURE

with Rachel David & Ben Beemes

STEEL SCULPTURE

with Rachel David & Ben Beemes

This extraordinary class provides an opportunity to be a part of a team that designs and builds a public art sculpture! Famed sculptors Rachel David (New Orleans) and Ben Beemes (Tasmania) are visiting artists working with The Crucible this summer to create a forged and fabricated steel sculpture. Students will develop foundational skills in blacksmithing and welding, comparable to The Crucible's Blacksmithing I course, exploring tapering, upsetting, punching, hot cutting, team striking and the power hammers, screw and hydraulic presses. You will gain basic metalworking, critical thinking and problem solving skills — and you'll create an original sculpture with the masters, from start to finish!

All classes held at The Crucible

Friday, July 29 – Friday, August 5, 2016

Tuition: \$440

10% discount for California Blacksmith Association Members!

WORK SESSION OVERVIEW

- Friday, July 29 (5 – 10pm)
